Dear Ahmed Egamal,

I hope you're doing well.

I would like to assign you a new task involving the design and development of a responsive webpage using HTML, CSS, and JavaScript.

Task Details:

Objective: Create a modern, clean, and responsive webpage.

Technologies: HTML5, CSS3 (Flexbox/Grid), and vanilla JavaScript (no frameworks unless discussed).

Design: Should be user-friendly and mobile responsive.

Features:

Add System Page show form enter data with actions

Deadline: 2 days

Deliverables:

Complete source code (HTML, CSS, JS files)

Preview of the design (screenshot)

Any design notes or documentation, if applicable

Please confirm your availability and estimated time to complete this task. Let me know if you have any questions or need clarification.

Looking forward to your reply.

Best regards,
Azmy Ahmed
